SHARMILA BANU J.H.

Online Educator & Python Mentor | B.E. Computer Science Engineering
sharminelofar786@gmail.com | Korattur, Chennai | Open to Remote Opportunities

PROFESSIONAL SUMMARY

Dedicated and results-driven educator with 14+ years of experience teaching Python, MySQL, and Computer Science to CBSE Class 11 & 12 students. Founder of 'Sha Curriculum Spot', an online tuition centre consistently delivering 98%+ pass rates. Combines deep technical knowledge (B.E. in CSE, Anna University) with a proven ability to simplify complex concepts for learners of all levels. Passionate about making quality education accessible — demonstrated through an independently managed YouTube channel (TechBox 247) offering free Python tutorials. Actively upskilling in Machine Learning & Data Science. Seeking a remote role in education, curriculum development, or EdTech or any private sector.

CORE SKILLS & TECHNOLOGIES

Programming & Databases

- Python
- MySQL
- C
- C++
- VB.NET
- SQL

Teaching & Pedagogy

- CBSE Curriculum (CS)
- Online & Offline Tutoring
- Curriculum Design
- Study Material Creation

Tools & Platforms

- MS Office Suite
- YouTube Content Creation
- Windows OS (XP–10)
- Google Workspace

PROFESSIONAL EXPERIENCE

Founder & Lead Educator — Sha Curriculum Spot

2012 – Present

Online Private Tuition Centre | Remote

- Founded and manage a thriving online tuition centre delivering Python, MySQL, and CBSE Computer Science curriculum to Class 11 & 12 students across India.
- Consistently achieved 98%+ student pass rates year-on-year across all enrolled students.
- Designed and created comprehensive e-study materials, lecture notes, and practicals tailored to the CBSE syllabus, making concepts accessible and exam-ready.
- Developed and launched the YouTube channel TechBox 247 — a free educational resource for beginner Python learners and CBSE students.
- Conducted personalised one-on-one and group sessions covering Python programming, MySQL databases, and Python-MySQL interfacing.
- Provided continuous homework support, test preparation strategies, and mock assessments to build student confidence.
- Maintained strong student communication and parent engagement to ensure academic progress and satisfaction.

EDUCATION

B.E. in Computer Science & Engineering — **2011 | 84%**
Anna University-First Class

Higher Secondary (Class 12) — **2007 | 71%**
Matriculation

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

- Machine Learning & Data Science — Certificate Course (In Progress)
- Cloud Computing Workshop — Seminar Attendee
- Artificial Intelligence — Seminar Attendee
- Logistics & Supply Chain Management — Seminar Attendee
- Computer Networking — Seminar Attendee

ACADEMIC ACHIEVEMENTS & RESEARCH

- Presented project paper at the National Conference on Emerging Computing & Communication Technologies (NECCT), Kongu Engineering College, Erode.
- Presented paper on 'Software Engineering — SDLC Models' at Angel College of Engineering and Technology.
- Presented paper on 'Computer Networks and its Layers' at Angel College of Engineering and Technology.
- Presented paper and project on 'Mobile Computing — GSM Technology' at Angel College of Engineering and Technology.

ACADEMIC PROJECTS

- Mobile Computing System — GSM-based network solution using Visual Basic and C++.
- Hotel Management System — Full-stack application built with VB.NET and C++.
- Library Management System — Database-driven application using SQL.

NOTABLE HIGHLIGHTS

- Selected for Technical Support Engineer role at CSS Corp (now Movate) through on-campus placement in 2011 — demonstrating strong technical aptitude from the outset.
- Self-taught Python and MySQL independently out of passion for learning, and converted that skill into a teaching career.
- YouTube Channel (TechBox 247): Created a free educational platform reaching CBSE students and beginners in Python programming.
